

Building a Secure, Resilient and Sustainable Port of Guam
Through Local, Regional and Federal Partnerships

ATOSSCOM 49th Annual Conference
Rory J. Respicio, General Manager

Port of Guam's Resilience

- Overcoming challenges in the past 5 ½ years
- Strength through Partnerships
- Honored to speak at ATOSSCOM

Guided by “ONE GUAM” Approach

- Focus:
 - Financial Stability
 - Operational Efficiency
 - Defense Readiness
- Enhancing Local and Regional Economic Growth

Infrastructure Modernization

- Replacing aging Gantry Cranes
- Upgrading Fuel Piers
- Enhancing operational efficiency of Berths

Strengthening the Fuel Supply Chain

- Resilience through Private Sector Expertise
- Public Ownership of Assets Maintained
- Procurement Process for Fuel Infrastructure set for early 2025

Advancing Security Measures

- Terminal Operating System (TOS) upgrades
- TWIC Systems
- Radar Intrusion and Vessel Tracking System

Collaboration Across Levels

- Strengthened Emergency and Disaster Response
- National Security and Regional Leadership

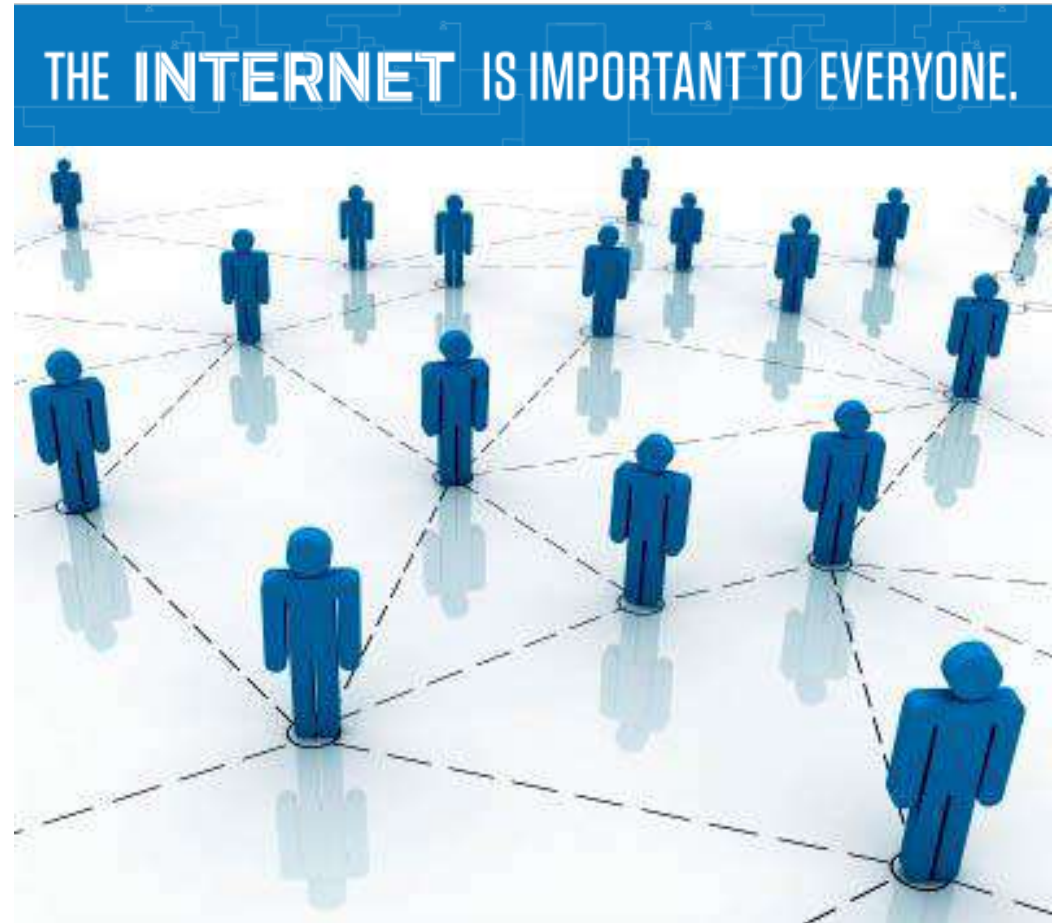

Leading in Sustainability

- Energy Efficiency Initiatives
- Waste and GHG Reduction Measures
- Pursuing \$2.4 million for Net Zero Emissions Strategy

Boosting Digital Access

- \$12 Million grant proposal submitted
- Focus on Bridging Digital Divide
- Digital Hub for Underserved Communities

Ensuring Financial Transparency

- Secured Federal Grants
- Maintaining Low-Risk Auditee Status
- Continuous Service Improvement

2024 and Beyond

- Enhance Infrastructure and Security
- Contribute to Guam's and the Indo-Pacific Economic Vitality
- Support U.S. Indo-Pacific Strategy

Port Strong

Building a secure, resilient and sustainable port
has been a collaborative effort.
Our work continues with confidence and determination.

Si Yu'os Ma'åse!
